**STARTING
FALL 2024**

**Be in the first Class at Middletown
Campus! Registration limited to 30
new students. Apply Now!**

The Civil Engineering Technology – Construction Management Major prepares graduates to coordinate and supervise the construction process from design through construction while meeting schedule, cost, and quality goals.

Graduates earn an Associate of Applied Science degree, and gain thorough understanding of project documentation, building methods and materials, estimating, scheduling, and team dynamics. Graduates also are well-versed in computer-integrated construction, and the practices and methods used throughout residential, commercial, and industrial construction.

EMPLOYMENT

Job Titles for Graduates:

- Estimator
- Project Engineer
- Project Manager

Salary Projections:

\$72,500 annual average (BLS)

Employment Outlook:

The construction industry is the nation's largest industry in terms of employment, and job opportunities for construction managers are projected to grow by 16 percent through 2025, faster than the average for all occupations. Construction managers will be needed as overall construction activity increases over the coming decade.

EDUCATION

Graduates Learn to:

- Estimate projects costs
- Inspect field work
- Monitor project control items
- Schedule building activities
- Utilize specialized software

Co-op Employers:

- Baker Concrete Construction
- Prus Construction
- Danis Building Construction Company
- Messer Construction Company
- Turner Construction Company

Co-op Salary Projections:

\$18.50/hour – \$22/hour

Continue your education with a Bachelor of Science in Commerce Small Business Management at Miami University Regionals
